PRESCOTT – In the wake of a virus attack that shut down most of the Yavapai County computer system for a week, two Yavapai County supervisors in their meeting Monday morning proposed limiting employee access to websites essential to county business only.

Supervisor Chip Davis, District 3, said such a policy would also be better for productivity. "It might be more efficient if we focus on

But experts advise caution, warn against complacency

By **KEN HEDLER**

The killing of Osama bin Laden dealt a blow to al-Qaida, but Americans should not become complacent about terrorism, experts at Embry-Riddle Aeronautical University in Prescott indicated.

Moreover, al-Qaida or its sympathizers might try to retaliate for the killing Sunday of bin Laden in a U.S. military helicopter raid in Abbottabad, Pakistan, in the view of Phil Jones and Richard Bloom of Embry-Riddle.

"There still is a very significant threat of terrorism even with Osama bin Laden gone, because there are many people involved" in terrorism, said Bloom, vice president of academics at Embry-Riddle.

Jones, a former CIA analyst, concurred, saying, "I do think there may be an attempt to retaliate. It is impossible to know what shape that will take."

Retaliation could come from "wannabe terrorists," Bloom said. He also referred to al-Qaida cells in Yemen – bin Laden's ancestral homeland – and in North Africa.

Bloom, who formerly worked in intelligence gathering, analysis, covert operations and counterintelligence for U.S. intelligence agencies, said some Pakistanis consider U.S. military actions in their country a violation of their national sovereignty. That perception could lead to a backlash.

Gov. Jan Brewer vetoed a change to the state's new fireworks law, while a committee chair from Glendale killed a bill that would have created a committee to study the idea of a new water right for rainwater harvesting.

The Legislature ended its session April 20, sending hundreds of bills to the gov-

ernor, who then had until Monday to decide what to do with them.

Arizona voters will decide in the fall of 2012 whether to keep or gut the state's 13-year-old Citizens Clean Elections law.

Senate Majority Whip Steve Pierce, R-Prescott, sponsored the legislation. It gained approval from both houses to make it on the statewide ballot.

Senate Concurrent Reso-

lution 1025 would ban the use of public money for so-called Clean Elections candidates who agree not to take the usual campaign contributions in exchange for getting public money, mostly through a 10 percent surcharge on all civil penalties and criminal fines.
