Parents say help was given to mum who snapped in murder-suicide

WE DID ALL WE COULD

THE family of a woman believed to have killed her daughter before taking her own life says they had done everything they could to offer support.

George Patterson yesterday told *The Courier-Mail* "every help was given" to his daughter Kim.

"We just want to remain as private as possible. It is a very tragic situation," he said.

Friends of the family also are struggling with why Ms Patterson would kill daughter Sidonie (pictured) then take her own life in Brisbane on Wednesday morning.

"She was an incredibly gentle and a very loving person," Kim's friend Sidonie Carpenter said.

It has been revealed Ms Patterson once worked in mental health but had recently been a stay-at-home mum.
