DEMOCRATIC NATIONAL CONVENTION

# 'WE CAN FIX IT TOGETHER'

SAUL LOEB/AFP/GETTY IMAGES

Balloons fall on Democratic presidential nominee Hillary Clinton and running mate Tim Kaine on Thursday after she made her case for election to the White House, citing a steady hand, a long history of public service and a deep knowledge of U.S. government.

**PHILADELPHIA** » After she spent an hour applying for the biggest executive job in the world, the glass ceiling broke and the balloons descended on Hillary Clinton.

They fell over Ava McElmurray, a 6-year-old from New York. They fluttered at the feet of 12-year-old Ada Kaine Evelyn-Jack, sitting with her mother amid the California delegation.

Their mothers wanted them to be here for the Democratic National Convention on Thursday, to feel the full weight of history — and to hear as Clinton offered a detailed, sometimes playful contrast to Donald Trump's pledge to lift the country by force of personality.

"Americans don't say 'I alone can fix it,'" Clinton said, quoting Trump's speech. "They say, 'We can fix it together!'"

## Essentials of the new vaccine rules

What you need to know about the state's immunization law

**By Courtney Perkes**  
cperkes@scng.com

California's tough new immunization law, aimed at quelling the spread of disease, will be put to the test for the fall school year, with a medical exemption now required for students to skip immunizations.

The law, which took effect July 1, was passed in response to a measles outbreak that started in December 2014 at Disneyland and sickened 81 people.

Here's a guide to how the law works:

All public and private school students unless the private school is entirely home-based.

How can parents opt out of vaccines?

**LA VERNE** » As the city has grown, so have the parking problems in La Verne. And they stretch beyond downtown.

In the northeast end of town, the residents have had it with the overflow from Haynes Family of Programs, a residential placement center for abused and troubled boys.

Neighbors near the facility, at 233 Baseline Road and often referred to as "LeRoy Boys Home," asked Carolyn Elmore to speak on their behalf. She addressed the La Verne City Council recently, describing the "nightmare."

"We have slowly lost the use and enjoyment of our private property and access to our property," Elmore told the council July 18. "LeRoy's staff people illegally park in our driveways, block our driveways and park near fire hy-
